SUMMARY

Cybersecurity Specialist with an AI background and excellent academic performance. Completed an AI abroad program at The Education University of Hong Kong, and with international academic exposure through 9 years of study in Canada, demonstrating strong English proficiency. With proven leadership experience as a team leader in multiple hackathons and competitions. Passionate about developing AI-driven solutions in cybersecurity.

EDUCATION

Bachelor of Science, Cybersecurity

Umm Al-Qura University

Aug 2022 – Jun 2026

GPA: 3.88/4

Artificial Intelligence Abroad Program

The Education University of Hong Kong

Jul 2025 – Aug 2025

GPA: 3.66/4

CERTIFICATES

- **Security+** — CompTIA
- **eCDFP** — Certified Digital Forensics Professional, INE
- **eJPT** — Junior Penetration Tester, INE

ACHIEVEMENTS

- **First Honors** – 3.88/4 GPA, *Umm Al-Qura University*
- **Deans Honor List (2 tracks)** - Excellence in Extracurricular Activities & Excellence in Standardized Assessments, *Umm Al-Qura University*
- **First Place** - Best Graduation Project Award, *Umm Al-Qura University*
- **First Place** – Best Graduation Project Poster Award, *Umm Al-Qura University*
- **Jahiziyah Medal of Excellence** – Cybersecurity 2026, ETEC

EXPERIENCE

Leader - Cybersecurity Committee, Computer Science Club Mar 2025 – Aug 2025

Umm Al-Qura University

- **Presenter /Contributor** – Professional Certifications Introduction Session, presented the eCDFP - Umm Al-Qura University
- **Speaker / Representer** – Majors Meetup (Cybersecurity Program Representative) – Umm Al-Qura University
- **Instructor**– 3-Day CTF Cybersecurity Bootcamp – Umm Al-Qura University

Intern – Holy Makkah Municipality, Cybersecurity Department Feb 2025 – Jul 2025

- Completed a 600-hour intensive cooperative training program in cybersecurity operations, where I supported incident documentation and technical reporting, reviewing and applying cybersecurity policies and compliance frameworks.

VOLUNTEER

90 Volunteer Hours - National Volunteer Work Platform

PROJECTS

AI Security Vulnerability Dataset & Detection Tool (REVEAL) – Built a dataset of **10,000 AI-generated web code samples from 5 AI models (2,000 samples per model generated using the same prompts)**—the first dataset of its kind—to compare vulnerabilities and coding patterns across models and using this dataset to develop a tool for detecting security vulnerabilities in AI-generated web code.

- **Team Leader**
- **First Place** - Best Graduation Project Award (out of 80 competitors), College of Computers
- **First Place** – Best Graduation Project Poster Award, Cybersecurity Department College of Computers

SKILLS

Technical: Programming, Linux, Digital Forensics, AI-ML, Cryptography, Web Development, Threat Modeling, LaTeX

Soft Skills: Leadership, Public Speaking, Communication, Content Design, Collaboration, Problem Solving

LANGUAGES

English — Fluent (9 years in Canada)

Arabic — Native
